Gert Melville (Director of FOVOG) and Kriston Rennie (Humboldt fellow) invited eleven exclusive Graduate students from Central- and Eastern Europe to the „Forschungsstelle für Vergleichende Ordensgeschichte“ (FOVOG) to present their research projects on the history of the medieval and early modern vita religiosa. The goal of the workshop is to discover promising and innovative research on the history of Orders and Monasteries, and to discuss FOVOG’s comparative methodical approach. In this way, the FOVOG hopes to combine western with eastern research traditions, and to attract the rising, ambitious, scientific generation for current and future cooperations.

This event is part of TU Dresden’s Institutional Strategy, funded by the Excellence Initiative of the German Federal and State Governments.
